Our Agreement

1. Collaboration Standards

- We will communicate openly and respectfully throughout the challenge.
- Every member will attend all team working sessions and contribute actively.
- We will meet internal deadlines we set for ourselves, and flag delays immediately.
- We will review each other's work and give constructive feedback before submission.

2. Academic Integrity

- All submitted work is our own, produced during the 36-hour challenge window.
- We will cite all external libraries, tools, pre-trained models, and data sources used.
- We may use generative AI to assist with code — but all analysis, interpretations, and strategic recommendations reflect our own collective thinking and judgment.
- We will not share our work with other teams, or receive work from other teams.
- We understand that violations of academic integrity may result in disqualification and formal academic consequences.

3. Workload Fairness

- We commit to distributing work equitably. The contribution percentages above reflect our honest intentions.
- If a significant imbalance develops during the challenge, we will address it as a team first.
- If unresolved, any team member may contact the faculty coordinator without penalty.

4. Submission Accountability

- All four members have reviewed the final submission before it is sent.
- All four members stand behind the accuracy and integrity of everything submitted.
- Our designated Submission Coordinator is responsible for sending the final email.

Conflict Resolution

If a disagreement arises that cannot be resolved within 30 minutes:

1. Vote — majority rules on non-critical decisions.
2. Defer to the relevant role lead within their area of responsibility.
3. Contact the faculty coordinator if the issue is blocking the submission.

Signatures — Pledge of Commitment
